TIES

In case of a tie for the lowest score for the championship, the winner shall be determined immediately by a sudden-death playoff. All other ties are broken by comparison of the scorecard. Determining the winner will be based on the score for the last nine holes, last six holes, last three, holes and finally the 18th hole. If there is still a tie, then the last six holes, three holes, and the final hole of the first nine holes will be considered in turn. If this process does not result in a winner, the winner will be chosen by chance (such as tossing a coin). If a multi-tee start is used, then the last nine holes, last six holes, etc., are holes 10-18, 13-18, etc. If the round is less than 18 holes, the number of holes used in matching scores may be adjusted. For weather-shortened events, the total number of holes played may be modified.
