

2024 International Junior Masters

Junior level players are invited to apply to compete in the 2024 International Junior Masters, the oldest international junior invitational in North America! This is a great opportunity to participate in a prestigious tournament and meet players from other states and other countries. Past participants have forged longstanding friendships with golfers from around the world at the IJM! The IJM tournament includes two days of Medal Play followed by Match Play, similar to the US Amateur Championship. After two days of Medal Play, the Medalists are recognized at an awards dinner on Wednesday evening. Players are then flighted for Match Play competition. The winner of the Championship Flight is the IJM Champion. In 2021, a Girls Division was added, with a field of eight golfers. In 2024, the field will expand to twelve, with the expectation that the AJGA will award performance stars.
